

Evaluation of Regulation (EU) No 1025/2012 on European Standardisation

Introduction

This public consultation is being conducted as part of the evaluation of Regulation (EU) 1025/2012 in response to the EU strategy on standardisation presented by the European Commission (COM(2022) 31). The European Standardisation System (ESS) provides the framework for requesting EU standards and standardisation deliverables in support of EU public policy and legislative needs, covering a wide range of industrial ecosystems.

The evaluation assesses the performance of the ESS in the evolving landscape of technical standardisation. It determines whether the existing framework is adequate and capable of delivering standards and technical specifications to support EU policy and legislative needs, while also maintaining global relevance.

Purpose and scope

The objective of this public consultation is to gather insights from a range of stakeholders with direct or indirect involvement in the ESS. It will look into various aspects of the ESS, including its achievements, efficiency, impact, relevance, EU added value, and alignment with EU policies and instruments. The public consultation will also help in gathering qualitative and quantitative data underpinning these assessments.

The public consultation will inform the assessment on the functioning of Regulation (EU) 1025/2012, the cornerstone of the ESS.

Your participation in this survey is a valuable contribution to the evaluation of the ESS and the Regulation. It will also help in identifying possible areas for improvement.

Data protection policy

Before you begin the questionnaire, please carefully review and accept the privacy statement. This statement provides essential information on the use and handling of the data you provide. Your privacy and data protection are of the utmost importance.

Thank you for your participation in this evaluation. We look forward to your valuable insights and contribution.

* Which category best describes your role within the European Standardisation System (ESS)?

- international standardisation body
- EU standardisation organisation
- representing societal stakeholders in line with the requirements outlined in Annex III of the Regulation national standardisation body
- national authority / market surveillance authority
- other national authority
- industry association
- company
- research institution
- none of the above

* Regarding standardisation, in what ways do you / does your organisation participate in the ESS?

Please select all that apply.

- participation in standardisation activities at the EU level.

- participation in standardisation activities at the national level.
- direct use of standards
- use of standards for public procurement
- inform(s) others about standards
- other (please specify) none of the above

*** To what extent are you aware of Regulation (EU) 1025/2012 on European Standardisation and its main provisions?**

- to a large extent
- to a moderate extent
- to a small extent
- not at all
- I don't know

General questions

To what extent has Regulation (EU) 1025/2012 achieved its general objectives?

| | to a large extent | to a moderate extent | to a small extent | not at all | I don't know |
|---|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| *reduce the time taken by the standardisation process for standards developed at the request of the Commission | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| *ensure that SMEs and societal stakeholders are adequately represented in the standardisation process, especially for standards developed at the request of the Commission | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| *broaden the use of ICT standards and thus enhance interoperability through a more integrated European public procurement market for ICT products and Services | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| *remove ambiguities in the previous legal framework related to the former co-existence of three different legal Instruments on EU standardisation (Decisions 87/95/EEC and 1673/2006/EC and Directive 98/34/EC) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

* Could you please explain your response in detail?

*** To what extent has the process defined by the Regulation facilitated the identification of ICT technical specification for public procurement referencing, and made the overall public procurement process more efficient?**

- to a large extent
- to a moderate extent
- to a small extent
- not at all
- I don't know.

Could you please explain your response in detail?"

In your opinion, where has Regulation (EU) 1025/2012 provided most added value (compared with not having this legal framework in place)?

'Please select 'yes', 'no' or 'I don't know' for each item.
